Education

UNIVERSITY OF PENNSYLVANIA, LPS Coding Bootcamp, Philadelphia, PA

Feb. 2021-Aug.2021

Full-Stack Web Development

- Experience with Github, HTML, CSS, Bootstrap, Foundation, Handlebars, JavaScript, jQuery, Node.js, Express.js, MySQL, Sequelize, Mongo, and Mongoose.
- Collaborated on a well-designed Clothing Re-Sale site that allows users to create accounts, log-in/log-out, view, post, edit, and delete items for sale as well as purchase other user's items.
- Created multiple applications that run on the command line, allowing users to input data that will be stored and displayed on a server.
- Successfully built an application that allows users to search any city and find local weather and events in their area.
- Created an application that allows users to input tasks in an hourly form to create a schedule for their work day using HTML, CSS, Javascript, Bootstrap, and local storage.
- Developed an application that displays current and forecasted weather for any city searched by user.
- Experience collaborating with peers on projects using GitHub.
